Our Mission

Providing a seamless, scalable software solution for managing and tracking IoT device lifecycles, ensuring security, traceability, sustainability, and ease of use.

Our Solution

Software that records all records relating to a device.

Farfields

IoT Lifecycle Manager

Complete Lifecycle Management of IoT Devices from Deployment to Recycling

Benefit From complete record of actions for all devices, for a lower cost of ownership

Benefits

Complete Device Lifecycle History

Asset Locating / Accountability

Improved Installation & Maintenance

Reduction in Operation Costs

Improved Security

Reduces E-Waste
